NOTE: Questions on race and ethnicity for the 1990 Census were different from the ones for Census 2000 in several ways. Changes included question wording, order, terminology and formatting. As a result, race and ethnicity data from the 1990 Census are not directly comparable to the data from Census 2000.

*Not available by Council District; however, the total citywide population of the "Pacific Islander" race category was 4,022 persons (0.5% of the City's population).

**Not available because the 1990 Census did not provide for multi-racial responses.
